SUMMARY

A passionate front-end web developer who loves to build cutting edge web applications. I'm currently learning MERN stack and would love to boost my skills even further.

PROJECTS

Review The Experience   DEMO
A MERN stack application to review what you have experienced
+ Learned about backend and NoSQL database with boosting my reactjs skills.
+ Implemented fully CRUD application with sign in and signup.

Libvery   DEMO
A web application for those who love books (Re:Coded capstone)
+ Team work with 4 other developers using Git and GitHub.
+ Implemented Reactjs, Tailwindcss, Redux toolkit and firebase.
+ Built this as a capstone project in the Re:Coded Reactjs bootcamp.

Portfolio   DEMO
A portfolio to showcase my works and progress.
+ Build this portfolio as a professional resume to showcase the experiences that I have.
+ Used Nextjs with Tailwindcss for developing the portfolio.

Weather App   DEMO
Simple weather application.
+ Built simple weather application during Re:Coded bootcamp.
+ Learnt about reactjs and fetching api.
